

## NAUTILUS 50 – 450

Easy maintenance, convenient operation, unequalled fountain pump service life - these are only a few of the qualities that the Nautilus name has guaranteed for years. The Nautilus is appealing with its patented USPs and guarantees fountain pump satisfaction.

### Product characteristics at a glance

- Over-proportioned filter surface through side-mounted wings.
- Electronically controllable, starting with Nautilus 200 (Accessories OASE InScenio, see pages 98-101).
- Second, individually controllable outlet (1/2" to 1").
- Individual alignment of the fountain through telescopic extension pipe and 15° ball joint.
- 1 – 3 nozzle patterns, depending on the model.
- All pumps come as standard with integrated spotlight holder.
- Fixing to a solid base is possible using the mounting holes
- Thermal overload protection for all Nautilus pumps.
- Convenient assembly/disassembly of the pump with simple click locks.

### TOP-3 sales arguments

1. Convenient adjustment of pump and fountain height through the use of filter wings at the edge of the pond
2. Filter surface over-proportionally enlarged, cleaning from the edge of the pond possible
3. 3 + 2 = 5 years guarantee
